

**SUPPLEMENTAL REISSUE APPLICATION DECLARATION BY  
THE INVENTOR**

Docket Number (Optional)

05525-00003-US1

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number \_\_\_\_\_, granted \_\_\_\_\_ and for which a reissue patent is sought on the invention entitled

**WIRELESS TELEPHONY FOR COLLECTING TOLLS, CONDUCTING FINANCIAL TRANSACTIONS, AND  
AUTHORIZING OTHER ACTIVITIES**

the application of which

☐ is attached hereto.☒ was filed on January 15, 2004 as reissue application number 10/757,724  
and was amended on \_\_\_\_\_  
(If applicable)I have reviewed and understand the contents of the above-identified application, including the claims,  
as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form  
PTO/SB/02B (or equivalent) listing the foreign applications.I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described  
below. (Check all boxes that apply.)☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

The Error in the patent is a consequence of claiming less than the patentee had a right to claim. At the time application SN 08/929,217 was filed and throughout the prosecution of that application, I was unaware that the claims were unnecessarily limited to methods which included either, "expanding the function of a service provider's central processing unit to include account and authorization information," (claims 1 and 6) or "expanding the function of a service provider's central processing unit to include secure independent verification of a user's identity" (claim 4). New claims directed to my invention are included in this application which are not so limited.

The claims in this application are directed to methods which use information stored in the wireless device that is routinely sent to the operator of a wireless system as an identifier. Use of this identifier allows identifying a financial account from a wireless device without the need for the user to manually enter this information. All the new claims are directed to this aspect of my invention.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

<b>WARNING:</b> Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.			
I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.
